## Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2016 - December 31, 2016

Filing Confirmation Number: 0007619804

Filing Deadline: March 23, 2017

FRN: 0022355762

Filing Date: 01/12/2017 12:26 PM

### General Report Information

#### Type of Company

Service Provider

#### De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

## Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that were tested under ANSI C63.19-2007, and that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007, include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operation?

Yes

Explain:

Do all hearing aid-compatible handsets that were certified only under ANSI C63.19-2007, but that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

Yes

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

## Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Service provider websites must include the levels of functionality that the service provider has defined, the level that each hearing aid-compatible model falls under, and an explanation of how the functionality of the handsets varies at the different levels.

Yes

Website address: <http://inlandcellular.com/faq/hearing-aid-compatibility-hac/>

Explain:

## Consumer Outreach

Describe consumer outreach efforts in the past 12 months: In 2016, Inland Cellular offered only HAC-compliant handsets. Inland Cellular continued to train their retail employees to identify and provide information regarding HAC compliant handsets and potentially useful accessories to Inland Cellular's current and prospective subscribers. Inland Cellular believes that one of the most efficient ways to disseminate information to its customers is at the point of sale. Inland Cellular will continue to educate its retail staff on HAC issues and the developing technology offered through the equipment manufacturers, so that their retail staff will remain a valuable information resource for Inland's current and prospective subscribers.

## Methodology for Functionality Levels

Inland Cellular's hearing aid compatibility offerings encompass the entire range of handset functionalities. For illustrative purposes, Inland Cellular has designated its various categories as "High", "Mid" and Basic." While some individual models may differ slightly, the descriptions below provide a general illustration of the types of features and characteristics typical of the models within each category.

High: Smart phones, data capable, e-mail capable

Mid: Media capable, text messaging, touch screen

Basic: Basic voice and text messaging capabilities
